CONEJO VALLEY UNIFIED SCHOOL DISTRICT
MAINTENANCE & OPERATIONS DEPARTMENT

MEMORANDUM

TO: All Parents/Guardians and Staff
FROM: Joe Putnam, Facilities Supervisor - Grounds
DATE: School Year 2010/11

RE: "Healthy Schools Act of 2000"

As directed in Assembly Bill 2260, Section 1. Article 4., this has been added to Chapter 5 of part 10.5 of the Education Code, to read "Article 4. Healthy Schools Act of 2000".

Section 17612 of this act reads as follows: "The school district designee shall annually provide to all staff and parents or guardians of pupils enrolled at a school site a written notification of the name of all pesticide products expected to be applied at the school facility during the upcoming year."

Please see the school district's List of Products we expect to use at our sites for the school year 2009/10 on the reverse side of this memo.

Section 17612, Part 1, also reads that the school district designee shall provide the opportunity for recipients to register with the school district if they wish to receive notification of individual pesticide applications at the school facility. Persons who register for such notification shall be notified of individual pesticide applications at least 72 hours prior to the application.

To register under this section please mail your name, address, student's name and school site to the Maintenance & Operations Department at 310 E. Kelly Road, Newbury Park, California, 91320, "Attention Pesticide Notification".

It is the goal of the Conejo Valley Unified School District to use the least toxic methods of pest control at the lowest effective dose through our Integrated Pest Management Program (IPM). A copy of the Conejo Valley Unified School District's IPM policy statement is stated below. If further information is desired, you may call (805) 498-4557, ext. 801.

INTEGRATED PEST MANAGEMENT POLICY (IPM) STATEMENT

The Conejo Valley Unified School District initiated an IPM Program in September of 1988. Since the initiation of the IPM Program, it has been the intent of the CVUSD to continue to utilize IPM principles to manage pest populations adequately. The choice of using a pesticide will be based on a review of all other available options and a determination that these options are unacceptable or are infeasible, alone or in combination. Cost or staffing considerations alone will not be adequate justification for use of chemical control agents. Strategies for managing pest populations will also be influenced by the pest species and the degree to which that population poses a threat to people, property, or the environment. The full range of alternatives, including no action, will be considered.

When it is determined that a pesticide must be used in order to prevent pest levels from exceeding action thresholds, the least-hazardous material will be chosen and applied at the lowest possible effective dose.

Our Rodent Control Leadworker and Facility Supervisor-Grounds are licensed and certified "Qualified Pesticide Applicators". Both are required to attend continuing education classes for pest management.

CONEJO VALLEY UNIFIED SCHOOL DISTRICT
LIST OF PRODUCTS

INSECTICIDES

CHEMICALS	ACTIVE INGREDIENTS
Talstar	bifenthrin
Tempo -20 wp	cyfluthrin, cy ano (4-fludro-3-pheno-xy plenyl, Methyl 3-(2.2-dichloroe-thenyl) 2.2 dimethyl cyclo Propan-e carboxylate
Perma Dust	boric acid
Wasp Freeze	d-trans auethrin .3-phenoxy benzyl (1rs, 3rs, 1rs. 3sr)-22-dimethyl-3-(2-methyl prop-1-enyl) cyclopropane-carbox-ylate
Terro PCO	sodium tetraborate, decahydrate (borax)
Knoxout 2 FM (only used for yellow jackets-bait)	diazinon.0.0 diethyl.0 (2 150 propyl-6 methyl 4 pyr: midinyl. Phos phorth-10 ate
Safer Soap	potassium salts
Merit 75wp	imidaclopria 1-{(6chloro-3-pyridiny)methyl}-nitro-2-imidazolidinimine
Safari	Dinotefuran, N-methyl-N'-nitro-N"-[(tetrahydro-3-uranyl)methyl]guanidine

SNAIL AND SLUG TREATMENTS

	ACTIVE INGREDIENTS
First Choice	iron phosphate

HERBICIDES

CHEMICALS	ACTIVE INGREDIENTS
Ronstar Plus	Oxadiazon [2-tert-butyl-4-(2,4 dicholoro-5-isopropoxyphenyl)-delta-1,3,4-oxadiazolin-5-one]…2.0%
Turflon	tricloyr 3.5.6 trichloro-2-iny (oxy-acetic acid, butoxyethyl ester
Roundup Promax	glyphosate n-(phosphonomethyl) glycine
Aquamaster	glyphosate n-(phosphonomethyl) glycine
Karmex DE (only used at N.P.H.S. ditch)	diuron 3-(3.4 dichloro phenyl)-1, 1-dime thylurea.
Fuscilade 2	fluazifo-p-butyl, butyl (R)-2-4-6-Tri-floromethyl) -2-pyridinyl) (oxy) phenoxyl pro panoate.
Tahoe 4E	Trichlopyr: 3,5,6-tricloro-2-pridinyloxyacetic acid, butoxylethyl ester

RODENTICIDES

CHEMICALS	ACTIVE INGREDIENTS
PCQ	Diplacinone 2-Dipleny (ACETYL)-1,3-Indandione
